

Mini size
Surface-mounted linear fixture

These Surface-mounted linear fixtures are our hot-selling products with a narrow, low profile. The 118-degree beam angle is ideal for a wide, even spread of light like in cove and wall-washing applications. They can create clean, modern linear designs for retail stores, commercial buildings and residential interiors. Some of them can also be used in conjunction with our tiltable stands. There are includes a choice of clear, frosted or mi ky diffuser. We also support customized product if you have a good idea.
